CLASSIC™ WOOD

PANEL AND STILE ILLUSTRATION / DIMENSIONS

Standard Rail and Stile dimensions

Model 44 all widths	
Top Rail	4 ³ / ₄ "
Bottom Rail	4 ³ / ₄ "
Intermediate Rail*	4"
End Stiles	4 ³ / ₄ "
Center Stile(s)	2 ¹ / ₂ "

* Door breaks within Intermediate Rails

PANEL HEIGHT AND WIDTH CALCULATIONS (Examples Shown Below)

Panel dimensions vary by door width, height and number of sections. Model 44 doors are available in 4, 5 or 6 sections high (depending on door height) and 2–10 panels across (depending on door width).

Total Rail Heights	
No. Sections	Total Rail Height
4	20 ¹ / ₂ "
5	25 ¹ / ₂ "
6	29 ¹ / ₂ "

Total Stile Widths					
No. Panels Across	Total Stile Width	No. Panels Across	Total Stile Width	No. Panels Across	Total Stile Width
2	12"	5	19 ¹ / ₂ "	8	27"
3	14 ¹ / ₂ "	6	22"	9	29 ¹ / ₂ "
4	17"	7	24 ¹ / ₂ "	10	32"

Panel Height = (Door Height – Total Rail Height) / No. of Sections High

Example A: What are the panel dimensions of a 10' x 7' door, 4 sections high and 6 panels across?

Panel Height
(84" – 21¹/₂") = 62¹/₂" / 4 = 15.625"

Panel Width
(120" – 22") = 98" / 6 = 16.333"

Panel Width = (Door Width – Total Stile Width) / No. of Panels Across

Example B: What are the panel dimensions of a 9' x 8' door, 6 sections high and 4 panels across?

Panel Height
(96" – 29¹/₂") = 66¹/₂" / 6 = 11.083"

Panel Width
(108" – 17") = 91" / 4 = 22.750"

PANEL AND SECTION CONFIGURATION OPTIONS

DOOR WIDTH	NUMBER OF PANELS ACROSS
up to 9'	2, 3, 4, 5, 6
9'2" – 10'	4, 5, 6, 7
10'2" – 12'	3, 4, 5, 6, 7, 8
12'2" – 14'	4, 5, 6, 7, 8, 9
14'2" – 16'	4, 5, 6, 7, 8, 9
16'2" – 18'	4, 5, 6, 7, 8, 9, 10

DOOR HEIGHT	NUMBER OF SECTIONS HIGH
6' – 7'9"	4 or 5
8'	4, 5 or 6

NOTE: Some 4 and 5 section high doors are illustrated on the next page. 8' high doors are also available in 6 sections high. The higher the number of panels across and sections high, the smaller the actual panels become.

HANDCRAFTED CONSTRUCTION

PRODUCT SPECIFICATIONS

MODEL	44RR	44HR	44CC	44HC	44HH	44FP
STILES & RAILS	Redwood	Hemlock	Cedar	Hemlock	Hemlock	Hemlock
PANELS	Redwood	Redwood	Cedar	Cedar	Hemlock	MDF
HINGE HOLE DRILLING	Through (TD)	Through (TD)	Spot Lag (SFL)	Through (TD)	Through (TD)	Through (TD)

- 1 3/8" thick doors, rail and stile construction with wood dowel pin joints.
- Redwood, Cedar and Hemlock Stiles and Rails.
- Redwood, Cedar, Hemlock and smooth exterior grade MDF (Medium Density Fiberboard) panels.
- Hinges are attached with Through Bolts (TD) or Lag Screws (SFL).
- Shiplap joints help seal out the elements.
- Windows are standard as clear single strength glass (SSB). Optional 1/8" obscure, 1/8" acrylic or 1/8" clear double strength glass (DSB) available.
- Nylon rollers for durable, smooth, long-lasting performance.
- 12" radius track for normal installations, 15" radius track available.
- Galvanized torsion springs standard.
- No lock standard, inside slide lock is optional.

HINGE ATTACHMENT
NOTE: You will see bolts on exterior of door with Through Bolt (TD) attachment.

STYLE AND FINISH

- Bottom weatherstripping available as an option.
- Factory priming is available on Model 44FP and Model 44HH doors.
- Stain grade doors are made with edge glued Redwood, Cedar or Hemlock wood panels.
- Paint grade doors are made with smooth exterior grade MDF panels. Paint grade doors cannot be stained.
- Variations in grain and color are indicative of natural wood. **Not considered product defects.**
- NEW! Hemlock doors are available in a white preprimed option (one primer coat plus two latex exterior top coats). Additional charges apply. Meets Clopay's warranty requirements.

SIZES

- Doors available in 2" increments from 6' to 18' wide.
- Available in 6', 6'3", 6'6", 6'9", 7', 7'3", 7'6", 7'9" and 8' heights.
- 6'-7'9" high doors available in 4 or 5 sections high, 8' high doors available in 4, 5 or 6 sections high.
- Sherwood and Horizon windows are available ONLY on 8' - 9' and 15'6" - 18' wide doors.
- All other windows available on 6' - 18' wide doors with some limitations.

SPECIAL NOTES

- Spot for Lag (SFL) drilling is STANDARD on Model 44CC. Through Drilling (TD) is STANDARD on Models 44RR, 44HR, 44HC, 44HH and 44FP.
NOTE: MUST SPECIFY drilling method when ordering if STANDARD is NOT preferred.
- 3/4 HP garage door opener is recommended (minimum 1/2 HP required).
- Doors must be finished according to Clopay's specifications or warranty will be voided (see page W12).
- For doors sold through Home Depot's Expert Installation Program, the springing systems and locking systems may vary by market.

CLASSIC™ WOOD

INITIAL CONTACT AND SITE CHECK SALE

- Customer inquires about Classic™ Wood at Home Depot.
- Home Depot associate may discuss options and pricing with customer. *(This step is encouraged but not required. Installer will be able to discuss all aspects of options and pricing at site inspection.)*
- Home Depot associate sells customer site inspection/sales call on a Purchase Order (PO) for \$50.00. *(This price is applied to the final cost of the door. Nonrefundable if customer cancels after site inspection.)*
- Site inspection/sales call PO is auto-faxed to 866-604-6423 *(exclusive fax number for Classic™ Wood orders only).*
- All orders for Classic™ Wood are processed through the Clopay F & I Call Center, regardless of how residential F & I orders are processed *(Co-Op, Superdealer, etc.)*. The contact telephone number is 877-526-2050, option 2.

SITE CHECK

- Clopay receives and registers order.
- Order is forwarded to appropriate installer.
- Installer calls customer to set up site inspection/sales call.
- At site inspection/sales call, the installer will perform the following functions:
 1. Measure opening
 2. Determine if garage condition requires additional labor
 3. Walk customer through:
 - Choosing model
 - Choosing windows
 - Choosing lock option
 - Choosing weather molding
 - Choosing finishing options
 - Selecting opener options
 - Painting and staining tips
 - Expectations for order and installation process
 - Working up total price for installation
- Installer has customer sign worksheet. *(Orders will not be entered without a customer's signature.)*
- Customer receives carbon copy of completed worksheet.
- Installer faxes completed worksheet back to dedicated Classic™ Wood fax number (866-604-6423).

CUSTOMER PURCHASE

- Clopay receives and registers completed site inspection worksheet.
- Clopay completes Home Depot PO request form/quote.
- Clopay faxes PO request form/quote to appropriate Home Depot.
- Home Depot uses Clopay PO request form/quote to build door and labor order on SKU 295-005 *(entered as Custom Work using the description and pricing on the quote received from Clopay).*
- Home Depot calls customer to review final quote, obtain customer's signature on quote form and collect payment.
- Door/labor PO and signed quote form are faxed to dedicated Classic™ Wood fax number.

DELIVERY AND INSTALLATION

- Clopay receives and registers door and labor PO.
- Clopay Classic™ Wood orders to be faxed directly to appropriate installer.
- Clopay sends notice to installer that door has been ordered after shipping information is received.
- Upon delivery of the door, the installer contacts customer to schedule delivery date.
- Installer confirms with customer that the finishing *(priming/staining/painting)* needs to be completed within 2 weeks.
- Customer signs delivery lien waiver.
- Customer contacts installer when priming/staining/painting is complete to schedule installation.
- Door is installed.
- Customer signs installation lien waiver.
- Installer faxes signed lien waivers and invoice to Clopay Call Center (866-604-6423) to be completed.

INVOICING

- Clopay receives and registers signed lien waivers and invoice from installer.
- Clopay faxes signed lien waivers and invoice to Home Depot.
- Home Depot key-reqs order.
- Clopay sends payment to installer.

CLASSIC™ WOOD

How to Properly Finish Your Wood Garage Door

Preparation Work

Wood products can absorb moisture during shipping and storage. Upon receipt of your new wood door, do not leave or store it unfinished outside where it is susceptible to weathering. It is very important that all sections be free of moisture prior to finishing them. Wood doors should not be finished under humid conditions, and if the door is stored in this environment it could be ruined. The door sections must be properly finished prior to installing your wood garage door. **Proper and complete finishing includes painting, staining or sealing all door section surfaces, sides, back, bottom, face and joints. Failure to do so will void the warranty.** Differences in grain and color are indicative of natural wood and are not considered product defects. Due to these differences, there may be variations in stain penetration, even between two boards of the same species.

Painting Your Door

Step 1: Fill any gaps or voids within wood surfaces with a caulking compound that can be painted. (Do not use silicone as it cannot be painted.)

NOTE: For optimum long-lasting performance the spaces between the rails or stiles and the door panel should be caulked with a paintable caulk prior to painting the door. For plywood and hardboard panel doors, all (4) sides of each panel should be caulked. For Hemlock, Cedar, or Redwood panel doors with woodgrain running horizontally, the bottom, left, and right sides of the panels should be caulked. For Hemlock, Cedar, or Redwood panel doors with woodgrain running vertically, the top and bottom of the panels should be caulked.

Step 2: Clean all door surfaces with a stiff bristle brush to remove surface dirt, dust, and loose fibers.

Step 3: Before finish painting, the door section must be primed on all sides. Wood doors can be ordered either primed or unprimed (primed doors can be identified by the light-green finish). If your door is preprimed, proceed to step 4 below. Prime all section surfaces using a good quality oil- or latex-based exterior primer, taking care to observe the primer manufacturer's application instructions, including recommendations on temperature and drying time. If you are painting a Redwood or Cedar door, the primer must contain a tannin blocker. **Using a primer on Redwood and Cedar doors that does not contain a tannin blocker could result in discoloration of the door after painting and will void the warranty.**

Step 4: Finish paint all door section surfaces using a good quality oil- or latex-based exterior paint. The finish coat base should be the same as the primer coat base (i.e. a latex-based finish paint is recommended for use with a latex-based primer, and an oil-based finish paint is recommended for use with an oil-based primer). If your door is factory primed, a latex-based finish paint must be used. Carefully follow all manufacturers' application instructions, including recommendations on temperature and drying time. A second top coat is recommended for optimum protection.

Staining Your Door

Step 1: Select a good quality exterior oil-based penetrating stain (transparent, semitransparent, or solid) that is mildew resistant, UV resistant, and water repellent. Selection of a stain or finish that does not have these properties will void the warranty on the door. Do not use film-forming finishes, such as varnishes and urethanes, which do not penetrate the wood.

Step 2: Clean all door surfaces with a stiff bristle brush to remove surface dirt, dust, and loose fibers.

Step 3: Apply stain to all door section surfaces per stain manufacturer's instructions, including recommendations on temperature and drying time.

Step 4: Fill any gaps or voids within wood surfaces with a clear silicone caulk.

NOTE: For optimum long-lasting performance on a stained door, the spaces between the rails or stiles and the door panel should be caulked with a clear silicone caulk after staining the door. For plywood and hardboard panel doors, all (4) sides of each panel should be caulked. For Hemlock, Cedar, or Redwood panel doors with woodgrain running horizontally, the bottom, left, and right sides of the panels should be caulked. For Hemlock, Cedar, or Redwood panel doors with woodgrain running vertically, the top and bottom of the panels should be caulked. To avoid an uneven caulk line that could affect the appearance of the wood surrounding the panel joints, apply masking tape to both the panel and the stile or rail along the entire joint prior to caulking, leaving a gap of 1/8". Caulk along the joint, pressing the caulk into the joint and smoothing with finger. After entire bead is applied, remove tape.

Maintaining Your Painted or Stained Door

The two major contributing factors to the breakdown of the door's finish (ultimately resulting in rotting and warpage) are sun and moisture. Annually examine your door for any signs of paint finish cracking or peeling or for any cracks in the wood door section. If the door is painted, the manufacturer recommends that it be repainted every 1–2 years to protect or seal the door against the elements. Failure to do so will result in voiding of the warranty. If the door is stained, reapply stain as needed per the stain manufacturer's recommendations. In general, the clearer the stain, the more it will need to be reapplied.

Minor cracks in the wood should be repaired by filling in the area with an exterior grade caulk compound and then refinished following the previous instructions. **Failure to repair cracks could potentially lead to more extensive section damage in the future and will void the warranty.** Gouges in the wood surface can be repaired with a wood filler. If extensive damage occurs to the door, the door manufacturer recommends that the door section be replaced. Failure to do so could result in damage or injury to property or individuals in the garage.

LIMITED WARRANTY

WOOD GARAGE DOORS

Subject to the terms of this Limited Warranty ("Warranty") and any warranty policies and procedures in effect at the time a notice of a claim is received, Clopay Corporation ("Clopay", "we", or "our") will repair or replace (at our sole discretion) any garage door sections/section components, hardware, or springs/spring components (collectively, "Replacement Parts") that we determine to be defective in material or workmanship so long as timely written notice is provided within the applicable limited warranty periods provided below. This Warranty shall apply and benefit only the original purchase of a Clopay garage door product and is non-transferable.

The Warranty period begins from the date of delivery. Proof of purchase is required. Once we have verified any defect(s) with your Product through persons authorized by Clopay, we will provide – at no cost to you – Replacement Parts to the extent necessary to repair or replace any such defective sections, hardware, or springs/spring components. We reserve the right to inspect and/or verify any claimed defect, as well as the right to replace Product(s) or its components with a similar or like product or component, all within the sole discretion of Clopay. All labor costs associated with any warranty claim (including removal, reinstallation, installation, and/or finishing) will be your responsibility.

The applicable Warranty periods are as follows:

MODEL NUMBER	FACTORY PAINT	FACTORY STAIN	SECTIONS/ DELAMINATION	HARDWARE/ SPRINGS
44RR, 44HR, 44CC, 44HC, 44HH, 44FP	1 Year	2 Years	1 Year	1 Year

ADDITIONAL INFORMATION REGARDING YOUR WARRANTY

Clopay warrants the sections of the Models listed above against the finish cracking, checking or peeling (i.e. losing adhesion) that occurs despite required cleaning and maintenance of your door.

Insulated windows are warranted for five (5) years for material obstruction of vision resulting from film formation or dust or moisture collection between the interior surface of the insulating glass. No warranty is available for single pane glass. No warranty is available for decorative hardware.

EXCLUSIONS TO COVERAGE

This Warranty shall not extend to damages or defects caused by any of the following:

Paint or Stain Not Applied per Manufacturer Specifications after Delivery of Door	Failure to Follow All Installation Instructions	Failure to Follow Maintenance Instructions	Faulty or Defective Installation(s)
Fire	Radiation (UV or Other)	Foreign Substances	Accident or Casualty
Harmful Fumes	Vandalism	Act(s) of God	Physical Damage
Salt Spray or Exposure	Normal Wear and Tear	Chemical Action	Abrasive Materials
Operation Beyond Rated Capacity	Improper Use or Abuse	Improper Installation or Handling	Exposure to Coastal Weather Conditions
Alteration, Modification or Use of Non-OEM/Clopay-Approved Parts or Products	Other Painted Parts Not Part of a Door Section (such as stop mold)	Normal Fading or Discoloration from Usage, Age or UV Exposure	Thermal bow as described in DASMA Technical Data Sheet 185 www.dasma.com

If you make any repair or alteration without first providing notice to and receiving authorization from us, or use any parts, accessories, or attachments other than authorized by Clopay for use in its products, you will be solely responsible for any such repairs or parts and you may void this Warranty. Routine maintenance and related items, as well as minor adjustments or damage caused by your installer either during delivery or installation, are excluded from this Warranty. For purposes of this Warranty, minor scratches will not be considered a defect.

If you would like to submit a Warranty claim, notify Clopay Customer Service promptly after discovery of the defect by sending an email to warranty@clopay.com or calling 800-225-6729. Please be prepared to send us a proof of purchase and complete description with photographs of any issues. YOU MUST REPORT ANY MANUFACTURING DEFECTS THAT ARE IMMEDIATELY OBVIOUS OR VISIBLE AT THE TIME OF INSTALLATION (SUCH AS INCORRECT OR INCONSISTENT PAINT COLOR, MANUFACTURING DEFECTS (E.G. SURFACE CONTAMINANT(S) OR SMUDGES), VISIBLE PHYSICAL DAMAGE, OR MAJOR SCRATCHES) WITHIN FORTY FIVE (45) DAYS FROM DELIVERY OR YOUR CLAIM MAY BE BARRED. Additional copies of our installation and maintenance instructions may be obtained by calling 800-225-6729.

UNDER NO CIRCUMSTANCES SHALL WE BE LIABLE FOR ANY CONSEQUENTIAL OR SPECIAL DAMAGES WHICH ANY PERSON OR ENTITY MAY INCUR OR CLAIM TO INCUR AS A RESULT OF ANY DEFECT IN THE PRODUCT OR IN ANY CORRECTION OR ALTERATION THEREOF MADE OR FURNISHED BY US OR OTHERS. OUR MAXIMUM LIABILITY UNDER THIS WARRANTY SHALL BE THE PURCHASE PRICE PAID TO US WITH RESPECT TO THE GARAGE DOOR TO WHICH SUCH WARRANTY IS CLAIMED. THE LIMITATION OF LIABILITY PROVISIONS HEREIN SHALL APPLY TO ANY AND ALL CLAIMS OR SUITS BROUGHT AGAINST US, INCLUDING ANY CLAIM BASED UPON NEGLIGENCE, BREACH OF CONTRACT, BREACH OF WARRANTY, STRICT LIABILITY OR ANY OTHER THEORIES UPON WHICH LIABILITY MAY BE ASSERTED AGAINST US.

This Warranty constitutes our entire and exclusive warranty as to the Product and is the sole and exclusive remedy for product defects in material and workmanship. We do not assume (and have not authorized any other person to assume on its behalf) any other warranty or liability in connection with any product covered by this warranty. WE MAKE NO OTHER WARRANTIES, REPRESENTATIONS OR COVENANTS, EXPRESS OR IMPLIED, WITH RESPECT TO THIS PRODUCT, INCLUDING BUT NOT LIMITED TO WARRANTIES, REPRESENTATIONS OR COVENANTS AS TO WORKMANSHIP, DESIGN, CAPACITY, QUALITY, CONDITION, MERCHANTABILITY OR FITNESS FOR ANY PURPOSE OF THE PRODUCT, EXCEPT FOR ANY "IMPLIED WARRANTY" AS THAT TERM IS DEFINED IN THE MAGNUSON-MOSS WARRANTY-FEDERAL TRADE COMMISSION IMPROVEMENT ACT, SUCH IMPLIED WARRANTIES TO BE LIMITED IN DURATION TO A PERIOD OF ONE YEAR FROM THE DATE OF PURCHASE.

This Warranty gives you specific legal rights, and you may also have other rights that vary from state to state.

To the extent of any conflict between this Warranty and any other document, this Warranty shall control. If Warranty is provided in multiple languages, the English language version shall govern.
